

ONE TECHNOLOGY

Connect accessories to the Control Board,
Insert the K-One,
follow instructions of **Comunello One App!**

Installation
made
easy

INCREDIBLY SIMPLE,
INCREDIBLY PROFESSIONAL

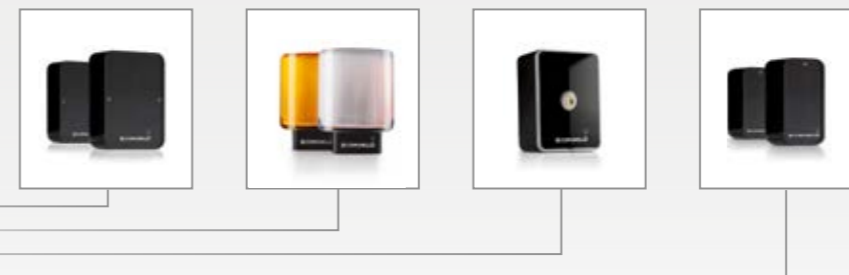

GATE AUTOMATION
WILL NEVER BE THE SAME AGAIN

1 AUTOMATIC RECOGNITION OF THE ACCESSORIES

This highly intelligent control unit can detect and identify all the peripheral accessories regardless of the terminal to which they are attached.

All accessories have an extremely easy 2 input bus connection and can be connected to the bus connection area terminals in any position.

2 CONNECTION THROUGH WI-FI

With the one touch set-up it will complete a standard installation in seconds.

The same easy set-up can also be achieved using the Komunello ONE APP connected through the K-ONE wi-fi key.

3 EASY TO PROGRAM

ONE technology when used through the **Comunello One App** can provide the most complete and articulated professional set-up in remote, but also can satisfy the requirements of a less experienced installer.

Complete programming, simple, intuitive and extremely precise!
